Dr. Nicole Reynolds obtained her doctorate in clinical psychology at the Georgia School of Professional Psychology/Argosy University Atlanta Campus, with a concentration in health psychology, in 2014. She completed clinical internship at Henry Ford Hospital in Detroit, Michigan and Geropsychology fellowship at the VA Brooklyn Medical Center in Brooklyn, New York. She is board certified in Geropsychology by the American Board of Professional Psychology (ABPP), and an active registrant of the National Register of Health Service Psychologists (NRHSP). Dr. Reynolds has worked in various medical settings throughout her clinical career including outpatient primary care, oncology/palliative care, solid organ transplant, and specialty medicine. She is currently working in private practice, where she provides psychotherapy and psychological consultation/evaluation services to adults living throughout Oregon and Washington. She is also licensed to practice psychology in New York and British Columbia.
